African American Man
threw things at me
while I walked on my
crutches - before this,
months ago a group of about
3 African American women
threw things at me while
I walked on my crutches
in the street but did not
hit me. These recent events
hit me and my ER visits require
a CT Scan and treatment
for the ~~thorax~~ hit \Rightarrow I am
fitting in appointments at the
hospital for these assaults but
don't have time. Doing my best.
